<i>Questions</i>	<i>Rating Result</i> [Poor] 1-5 [Excellent]
1. The title is clear and it is adequate to the content of the article.	5
The title does represent the content of the article very well.	
2. The abstract clearly presents objects, methods and results.	5
The abstract provides good summary of objects, methods and results.	
3. There are few grammatical errors and spelling mistakes in this article.	5
The manuscript was well aligned with expected writing standards.	

4. The study methods are explained clearly.	2
The methodology section needs further description of interview questions and a copy of this included after the reference list as an appendix.	
5. The body of the paper is clear and does not contain errors.	4
Other than the need for some additional content, the body of the paper is very clear and error-free.	
6. The conclusions or summary are accurate and supported by the content.	3
As this topic is a current topic of great interest among educators at all levels per the pandemic experience, a subsection with the conclusion is needed on “Recommendations for further research” to encourage others to continue needed exploration of the topic.	
7. The references are comprehensive and appropriate.	5
The references do seem to provide good quantity and quality of support for the content of the paper.
